"In the Handbook on Human Behavior and the Social Environment, Greene and Schriver provide an integrated and critical approach to understanding and applying theories that guide social work practice with excellent case examples. Of particular note are the identification of strengths and shortcomings of applying theories and frameworks as well as the excellent effort to integrate considerations related to cultural diversity, cultural humility and structural racism across all chapters."

Human behavior is studied by the social sciences, which include psychology, sociology, economics, and anthropology. In sociology, behavior may broadly refer to all basic human actions, including those which possess no meaning; actions directed at no person. Behavior in this general sense should not be mistaken with social behavior.
