A brief history of philosophy, part 2: Socrates, Plato & Aristotle. After the natural philosophers, the main focus of philosophy was changed by Socrates – probably the most famous philosopher of them all. His position was that you begin to become a philosopher when you admit that you know nothing. In that respect, he was similar to the sophists, but where their thinking finished, his began.

A History of Philosophy is a history of Western philosophy written by the English Jesuit priest Frederick Charles Copleston originally published in nine volumes between 1946 and 1975. As is noted by The Encyclopedia Britannica, the work became a "standard introductory philosophy text for thousands of university students, particularly in its U.S. paperback edition." Since 2003 it has been marketed as an eleven volume work with two previously published other works by Copleston being added to the s

Philosophy (from Greek: φιλοσοφία, philosophia, 'love of wisdom') is the study of general and fundamental questions, such as those about existence, knowledge, values, reason, mind, and language. Such questions are often posed as problems to be studied or resolved. The term was probably coined by Pythagoras (c. 570 – 495 BCE). Philosophical methods include questioning, critical ...

Philosophy - Wikipedia

History of Philosophy. Philosophy has been around since the dawn of western civilization. The golden age of Greek philosophy took place in Athens in the 5th century BC. The works of Socrates, Plato, and Aristotle informed thousands of years of thought, becoming central to thought in the Roman world, the Middle Ages, and then resurfacing in the renaissance and later.

Bertrand Russell's History of western philosophy comes to mind as standard one-volume treaty, even if it's very personal and opinionated. And Jostein Gaarder topped the best sellers list with a book oriented to the younger ones, the now famous "Sophie's World" (a success he didn't have with the same formula for a history of religions).
