Students who are highly motivated, feel confident, and feel safe are more open to input. Let's picture two classrooms:

### **What Is the Affective Filter, and Why Is it Important in ...**

In brief, this aspect of learning focuses on how learners feel about their learning and the course environment. Motivations and attitudes have been extensively studied in educational psychology. As you can see from the student videos, their motivations, attitudes and feelings influence their learning experience.

### **Motivational & Affective Factors**

Learning factors: Factors owing to lack of mastery of what has been taught, faulty methods of work or study, and narrowness of experimental background may affect the learning process of any pupil. If the school proceeds too rapidly and does not constantly check up on the extent to which the pupil is mastering what is being taught, the pupil accumulates a number of deficiencies that interfere with successful progress.

## Affective Factors Influence Classroom Learning Affect.

Negative affective factors are called affective filters and are an important idea in theories about second language acquisition.

### **What is motivational and affective factors?**

Motivation is also a powerful factor. Intrinsic motivation, such as the desire to achieve personal goals and successfully learn the new language, and extrinsic motivation, such as the need to improve language skills in order to find a job or communicate with peers, are both important factors.

Factors: Anxiety Success or failure in second language acquisition has been attributed to many factors.

### **Affective Factors: Anxiety**

Abstract: Individual learners' affective factors are very important for foreign language learning. In China foreign language learning mainly happens in classroom. Foreign language teachers are the organizers and carriers of language classes, and thus they inevitably influence the students' affection.
