~~[PDF] A Study of the Attitude, Self-efficacy, Effort and ...~~

self-efficacy on college students' academic achievement (p. 338). The results indicated that self-efficacy was a significant predictor of one's academic achievement. Also, in Lent, Larkin and Brown's research (1986), they also supported that academic self-efficacy was a reliable predictor of one's educational performance (p. 265).

~~A Study of the Attitude, Self-efficacy, Effort and ...~~

Self-efficacy relates to students' self-perceptions of their ability to perform a task (Bandura 1986). It is important to note that self-efficacy is related only to a specific field or group of behaviors of an individual. Specifically, computer self-efficacy could be described as the judge of an individual about his/herself on using computers.

~~A study of students' self-efficacy, performance and ...~~

The result in Table 1 on students' computer self efficacy and attitude towards internet shows that the calculated r-value is indicating that there is a positive and significant relationship between students' computer self-efficacy and their attitudes towards the internet. This observed positive relationship implies that as students computer self efficacy increases, their attitude towards internet also increases.
