In recent decades, the importance of creative cluster development has gained increasing recognition from national and regional governments. Governments have been investing in initiatives and urban development plans that aim to create or support localized creative industries. Our understanding of creative clusters is expanded with this insightful volume, which looks at issues of governance, place-making and entrepreneurship. In addition to its theoretical contributions, the book also presents a rich range of international case studies, including, among others, an analysis of coworking spaces in Toronto, business park development in MediaCityUK and mediapark.brussels and public-private partnerships in Warsaw. Creative Cluster Development will be valuable reading for advanced students, researchers and policymakers in urban planning, regional studies, economic geography, innovation studies and the creative and cultural industries.

Designed for the one-term course in trigonometry, the Third Edition incorporates all of the many teaching and learning tools that have made Zill's texts a resounding success. A rich pedagogy and an extensive supplements package make this text a must-have resource for students and instructors alike. Zill takes care to include a full set of engaging and motivating features for students, including a wide range of word problems and specific applications, historical accounts of mathematicians, and a strong variety of relevant exercises. These extensive exercises give students the opportunity to test their comprehension, challenge their understanding, and apply their knowledge to real-world situations.

The WTO's Trade Policy Review Mechanism, which reviews the trade policies and practices of each WTO member at regular intervals, is generally considered to function well. In this day and age, complacency is unwise. Examining trade policy reviews throughout the lifetime of the TPRM, this book details its evolution from Article X of the General Agreement on Tariffs and Trade to the proposed modifications resulting from the mechanism's latest appraisal, examining the budgetary capabilities and technical performance of all the main entities who participate in the reviews. On the basis of these considerations, the author concludes that in order to remain relevant, especially in times of increased global protectionism, the TPRM could, and should do better, and provides unique and timely suggestions for reform.
