## Determining Homebound

Documentation of the homebound status needs to be clear throughout the duration of care. Whether stated or implied, the homebound status

must be obvious from a reviewer's standpoint. All homebound documentation in the Plan of Care (POC) must be supported by documentation in the medical record as well.

not always permanent. A patient recovering from surgery, an accident, or episode of acute illness can be homebound for a short term. However, once that status changes, the patient must be discharged for outpatient care or follow up. By the same token,

homebound status cannot change on a day-to-day basis to meet with the convenience of homecare. Staying home from outpatient therapy for a few days because of flu or a cold does not a homebound status make.
