Justice discourse has long played an important moral and strategic role in the waging of war. Whether the cause is a just one is determined by the jus ad bellum, the 'law of war'. Whether the mode of fighting a war is just is determined by the jus in bello, the 'law in war'. The international system has tried to limit the grounds for initiating hostilities and also the means by which ...

Just and Unjust Wars. Michael Walzer in his book, *Just and Unjust Wars*, asserts that there are two types of war i.e. preemptive war and preventive war that a country may engage in to rightly defend themselves against violence that is imminent but not actual. In his book, he describes preemptive war as war engagement only in situations where a would-be aggressor has exhibited hostile acts short ...

You rarely have a completely just war or a completely unjust war; most wars are in between. In our survey, we defined each of the criteria for the experts. While some people define "right intent" as meaning that you must intend to create peace, we defined it in a different but compatible way—as the degree to which the actual motivation behind the use of force is the same as the declared motivation.

Michael Walzer's *Just and Unjust Wars* remains the standard account of just war theory despite the criticism it has received. Much of that criticism denies the political character of just war discourse by substituting general moral principles for principles generated in reflecting on the use of military force. It challenges Walzer's view of the relationship between morality and politics and his conclusions about the moral standing of states, the moral equality of soldiers, the moral basis ...

The just war is a largely Christian philosophy that attempts to reconcile three things: • taking human life is seriously wrong • states have a duty to defend their citizens, and defend justice • protecting innocent human life and defending important moral values sometimes requires willingness to use force and violence The theory specifies conditions for judging if it is just to go to war, and conditions for how the war should be fought.

Part 1 of *Just and Unjust Wars* focuses on the moral reality of war, arguing against realism. Walzer's opposition to the Vietnam War quite naturally ruled out the adoption of a political realist, Clausewitzian understanding of war as simply an act of policy, with no particular moral freight attached to the choice of violence.
