Chapters

understand how to apply the latest research to real-life patient care. Safety Alerts throughout the book highlight patient safety issues and focus on the latest National Patient Safety Goals. UNIQUE! Nursing management is presented in a consistent and comprehensive format, addressing the unique approaches to nursing care. Case Studies throughout text emphasize prioritization, delegation, and concept mapping to help you learn to prioritize and delegate patient care Separate chapter on Genetics focuses on practical application to nursing care of patients.

Online Library Medical Surgical Nursing Textbook

Chapters in Clinical Practice boxes cover key topics such as genetic testing, Alzheimer's disease, sickle cell disease, and genetics-related ethics issues. Genetic Risk alerts and Genetic Link headings highlight specific genetic issues related to body system assessments and disorders. Ethical/Legal Dilemmas boxes promote critical thinking for timely and sensitive ethical and legal issues. Pathophysiology Map flow charts make it easier for you to visualize and understand changes occurring in major diseases. Focused

Online Library Medical Surgical Nursing Textbook

Assessment tables reflect a realistic "assessment on the run" approach and offer brief checklists for evaluating the status of previously identified health problems and monitoring for signs of new problems.

Extensive drug therapy?content includes Drug Therapy tables and concise Drug Alerts highlighting important safety considerations for key drugs. Promoting Population Health tables summarize government health care goals as they relate to specific disorders and identify important strategies for the prevention and early

Online Library Medical Surgical Nursing Textbook

Chapters

detection of diseases.

Nutritional Therapy tables summarize nutritional interventions and strategies for promoting healthy lifestyles in patients with various conditions.

Promoting Health Equity boxes and a dedicated chapter on health disparities and culturally competent care highlight risk factors and important issues related to the nursing care of various ethnic groups. Complementary and Alternative Therapies boxes summarize what you need to know about the clinical uses, effects, and nursing implications of herbal remedies and

Online Library Medical Surgical Nursing Textbook

Complementary and alternative treatment options. Nursing interventions and nursing diagnoses are listed in order of priority. Nursing Management boxes highlight the nurse's role in working with members of the interprofessional team and also cover specific topics and skills related to delegation. Assessment Abnormalities tables alert the nurse to frequently encountered abnormalities and their possible etiologies. Core clinical content focuses on highlighting and incorporating QSEN competencies. Emergency

Online Library Medical Surgical Nursing Textbook

Management tables outline the treatment of health problems most likely to create medical emergencies. Learning Outcomes and Key Terms help you identify the key content for that chapter. Health History tables present key questions to ask patients related to a specific disease or disorder. Patient and Caregiver teaching tables provide critical information to help you educate others who will be helping to care for the patient. Gerontology and chronic illness included throughout?the text under Gerontologic Considerations headings and in Gerontologic Assessment tables. Nursing

Online Library Medical Surgical Nursing Textbook

Chapters Assessment tables summarize the key subjective and objective data related to common diseases. Gender Differences boxes discuss how women and men are affected differently by conditions such as pain and hypertension. Diagnostic Studies tables provide details of commonly used lab tests that help assess various body systems. Over 60 nursing care plans clearly shows the linkages among NIC, NOC, and nursing diagnoses, and applies them to nursing practice. Over 800 full-color illustrations and photographs clearly demonstrate disease processes and related
