This book presents a catalogue and discussion of the Late Bronze Age Minoan-Mycenaean agricultural, wood-working, met-allurgical and general purpose tools found in Europe. It primarily discusses the affect sites and finds made on the mainland of Greece; in an attempt to investigate into the nature and extent of contact between Europe and Greece during this era.

Completely revised and updated edition. The book covers the entire field of satellite geodesy (status spring/ /break summer 2002). Basic chapters on reference systems, time, signal propagation, and satellite orbits are updated. All currently important observation methods are included and also all newly launched satellites of interest to geodesy. Particular emphasis is given to the current status of the Global Positioning System (GPS), which covers now about one third of the book. A new chapter on Differential
