Sue Martin was not three years old when she began life at her first children's home: a home that could at best be described as cold and regimented; at worst, torturous and terrifying. When her mother abandoned her to the protection of the home, Sue was soon to discover that behind the welcoming doors of this reputedly kind-hearted organisation lay a world steeped in lies, cover-ups, victimisation and abuse. At its heart was Boagey, whose perverse bullying was targeted at Sue. Her attacks quickly progressed from the gratuitous punishment of an innocent child to sordid gratification of her sexual whims. Sue's story is one of institutional abuse - of physical, mental and emotional torture of the most appalling kind - but it also a story full of joy, humour and many victories - small and large - against her abusers. Utterly compelling and shockingly revelatory, No Way Home will astound, move and inspire.

When an Earth-shattering secret has two legs, a big mouth, and a blinkered determination to get home by any means necessary, it 's up to Daisy and Aidan to stop it happening... by any means necessary! From feeling like they were back in the eighteenth century, Daisy and Aidan are thrust very much into the twenty-first century. Answering a desperate call for help, they find themselves embroiled in a crazy chase across the county to stop a secret going public that must never hit the front pages. This time there 's no murder mystery... the puzzle is the whereabouts of the missing scarecrow, and just how he intends getting ' home '. Our story is different in another, just as scary way too. Our intrepid heroes are separated, and neither knows where the other is. For Aidan, an encounter with an old friend proves scarily enlightening, while Daisy discovers evidence he could well be in mortal

danger, and there isn't a lot of time to save his life... or the situation. Neither of them realise the secret they're chasing is hardly the secret they thought it was. As an ever-increasing number of friends and enemies join the battle for the same pot of gold, the yellow brick road starts to look more like a four-lane highway, and the end of the rainbow seems to be ever further away. Who will be the first to make Emerald City in one piece? With the spoils just out of sight over the horizon, that's anyone's guess! 'The Terrifying Tale of the Homesick Scarecrow' is the fifth book in the hilarious Daisy Morrow series, and like the others, is not exactly what you might expect! "Amazing! These books should be made into Masterpiece Mystery movies!" Come and meet our feisty R.E.D. heroine, and find out why she's such a hit with readers! Discover all about Daisy at rtgreen.net

In the sequel to the terrifying science fiction thriller, *One Way*, returning home from Mars may mean striking a deal with the very people who abandoned him. They were sent to build a utopia, but all they found on Mars was death. Frank Kitteridge has been abandoned. But XO, the greedy -- and ultimately murderous -- corporate architects of humanity's first Mars base made a costly mistake when they left him there: they left him alive. Using his skills and his wits, he's going to find a way back home even if it kills him. Little does he know that Mars isn't completely empty. Just over the mountain, there's another XO base where things are going terribly, catastrophically wrong. And when the survivors of that mission find Frank, they're going to want to take even the little he has away from him. If there's anything in Frank's favor, it's this: he's always been prepared to go to the extremes to get the job done. That's how he ended up on Mars in the first place. It just might be his ticket back. For more from S. J. Morden, check out: *One Way*

Terrifying Tales Unleashed is a menagerie of short stories covering many popular genres including horror, science fiction, and suspense/thriller. The unleashing of each twisted account will bombard one's thoughts with impending shock waves. Will you be able to hold on to your own reality? Can you make yourself believe that what you are about to read is nothing more than a few tall-tales? Are you prepared to partake in a remedy for peaceful slumber and succumb to fitful nights of insomnia? The stories within this book are nothing more than pure fiction and certainly could not have really happened. OR COULD THEY!

SOS! What would you do if you were stranded in the middle of the ocean, with no way to get home? How long could you survive? Find out what actual survivors did in these true tales of being lost at sea.

Stranded on Mars with seven other convicts, one man must fight for survival on a planet where everyone's a killer in this edge-of-your-seat science fiction thriller for fans of *The Martian*. Former architect Frank Kittridge is serving life for murdering his son's drug dealer, so when he's offered a deal by the corporation that owns the prison - he takes it. He's been selected to help build the first permanent base on Mars. Unfortunately, his crewmates are just as guilty of their crimes as he is. As the convicts set to work on the frozen wastes of Mars, the accidents multiply. Until Frank begins to suspect they might not be accidents at all... Dr. S. J. Morden trained as a rocket scientist before becoming the author of razor-sharp, award-winning science fiction. Perfect for fans of Andy Weir's *The Martian* and Richard Morgan, *One Way* takes off like a rocket, pulling us along on a terrifying, epic ride with only one way out.

Hungary under the Nazis, only to be invaded by Russia after the war. My story begins in 1938 in the peacetime of my childhood in Budapest, Hungary. Those years before the war were all happy memories. The good times were over when the war began in our country in 1943-44. We endured airstrikes all around us and had to hide in a bunker to save our lives. Then came the terrifying ground invasion of the Red Army. After World War II, the communist government controlled Hungary. We continued to feel afraid for our safety, as Hungarians were arrested, tortured, and killed by the Russians. Eventually, Hungary had enough and an uprising began in 1956. The Russian Army overcame the Hungarian Revolution, but it provided an opportunity for my brother, Steve, and I to escape. We risked our lives and left our family behind, not even able to say goodbye. It was a difficult journey, but we were elated to arrive in the U.S.A. With no money and only the clothes on our backs, we knew it would be difficult to begin our new lives in America, but at least we had freedom!

A story of intrigue, an unsolved mystery, a warning ignored--draws the reader into the lives of Becca Nelson and Leigh Wilcox, who stumble into the center of a dark plot. Is Think Tank Axis #1 an undercover organization bent on controlling the minds of teens? Do the points in the survey questions start them down a path of doubting their family life? Becca Nelson surmises this as fact. She confides her suspicion to Logan who listens, but is not alarmed. Do your parents give you choices on everyday decisions? Is the culture of your parents old fashioned and irrelevant to teens of today? Do you believe your parents are fair to you? Would you like to plan your future without others opinions? Do you tell your parents everything? I have to keep myself out of trouble. I dont have a dad to defend me, one that will always take my side. And Mom wouldnt know what to do if she had to get me out of trouble. I cant waste my time on trying to be popular. I discarded that goal long ago. I saw what happens to those kids whose friends didnt know the definition of loyalty. Popularity is like a swinging door, in one day, out the next. Too many tears and heartbreaks for those once-upon-a-time popular kids. On their bike ride, the girls capture an injured magpie and nurse him back to health, eventually releasing him back to the wild, not realizing they would meet again.

Ghoulies, ghosties, and long-leggedy beasties inhabit these 30 chilling tales gathered from around the world—perfect for fans of Scary Stories to Tell in the Dark! Creepy classic and contemporary stories from Australia, Germany, India, El Salvador, and elsewhere--including a healthy helping of American apparitions--will keep readers and listeners scared stiff. Do you dare walk down the lane where "Crooker Waits"? Or would you rather shake "The Hairy Hands"? Twenty eerie illustrations highlight this companion to Robert D. San Souci's earlier collections of scary stories, which School Library Journal called "an absolute delight. . . . Young readers will gobble up these thirty thrilling snacks and beg for more." Savor this supernatural treat for spine-tingling fun!
