Ambitious but Rubbish reveals the off-camera secrets behind some of Top Gear's most memorable creations. From the challenge of turning a Reliant Robin into a rocket and the genesis of the Hammerhead-i Eagle Thrust electric car to the complexities of building a caravan airship and the inspiration for destruction-testing a Toyota Hilux, this book is packed with the previously untold stories behind dozens of classic TV moments. Top Gear has never shied away from trying to answer questions no one has even thought to ask. Questions like 'Can you make a convertible people carrier?', 'Can you cross the Channel in a pick-up?' and 'Can you turn a combine harvester into a snow plough?'. Ambitious but Rubbish reveals how those insane ideas came about with remarkable tales of ingenious invention and idiotic engineering. This book is essential reading for any Top Gear fan and a terrific insight into the creation of the world's biggest car show. It's also a terrifying window into the minds of Jeremy Clarkson, Richard Hammond and James May. Don't say you weren't warned about that last one.

Building your own hovervan or brewing your own beer? Get down to the garage. Looking to store several step ladders or conceal a secret collection of owls? The garage is the place. Maybe you just want to whistle, drum or shout 'Ow my thumb!' without being told to shut up. The garage is waiting. This book celebrates the garage and all that happens in it. Even the fires.

Every year, Top Gear dispatches correspondents to cover many serious stories around the world. Wherever they go, they ask tough questions and leave no stone unturned in search of the cold, hard truth. Questions such as: Is it possible to drive a Ferrari up a Scottish ski slope? Exactly how far can you drive a bulldozer across the Antarctic before it falls down a big crack? And what happens when you drive a small 4X4 up a volcano, during an earthquake, with a high chance of eruption? The answers to all of the above - and more - can be found in Top Gear Top Drives, a new book featuring Top Gear's best adventures, neatly arranged in precise geographic order: top, middle and bottom. These are not Sunday drives to country pubs. You will not find any mentions of freshly cut grass and picnics under oak trees. In fact, you are more likely to encounter roadside landmines and a pack of Chilean llamas with a relaxed approach to personal hygiene. Of course you will also find supercars on winding mountain passes, but this book goes much further, bringing you the most unusual combinations of car and tarmac - or lack of it - from across our planet. All of which are accompanied by a surprisingly useful collection of travel tips, featuring such useful advice as when to go, what the weather's like and where to find a reasonably

priced beer. Like any classic travel guide, you really shouldn't leave home without it. Unless you write down the really important bits, in which case you'll probably be OK.

Top Gear is the UK's bestselling car magazine and BBC2's top show. The Stig is TG's resident racing driver and an iconic figure for fans. Now, in his own book, The Stig is cleverly concealed in a series of brilliantly drawn crowd scenes to provide hours of Stig-finding fun.

Best known as the third presenter in the unholy trinity that is Clarkson, Hammond and May on Top Gear, James May has lived, breathed and dreamt about cars his entire life. There is something about cars that stirs up intense feelings in people - how it makes them look to the outside world, how it makes them feel about themselves, how it looks to their girlfriends or their mates, or their neighbours. These feelings are humorously described in May on Motors, as James takes us on the road and looks at the cars that have shaped him, his world and the ordinary people of Britain. In May on Motors, James has brought together his most controversial and amusing pieces to make a brilliant collection that will amuse and inspire all car enthusiasts.

The brand spanking new edition of the nation's favourite annual for grown up kids -- The Big Book of Top Gear is back! There'll be something to satisfy every Top Gear fan in The Big Book of Top Gear 2012. It's overflowing with Top Gear genius, geeky automotive facts, photographs of the slickest, fastest cars on the planet (and a few old bangers). With all this, and much, much more, it's literally the loudest, most ambitious, most powerful and explosive book in the world.

I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride. We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to "write a quote" for his new book about the ancient history of Top Gear. But this is a ridiculous request. How can one "write a quote"? Surely, by

definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated work. I cannot "write a quote" any more than I could "film an out-take". 'Porter, like Athens, has lost his marbles.'

Modern parenting presents fresh challenges, including unrelenting time pressures, lack of support systems, and work demands, that often leave parents drained and worn-out. Erin Leyba, the mother of three young children, has been counseling parents on these issues for almost twenty years. She has developed techniques that help parents not only cope but also feel joy – in their parenting and in their relationships with their partners. Leyba draws from the latest research about child development, attachment, successful marriages, and mindfulness to create effective, doable solutions for balancing, simplifying, and communicating. She presents powerful tools that parents can use right away to de-stress, stay energized, and create more warmth and passion with loved ones. Whether new, veteran, overwhelmed, exhausted, or just interested in doing better than they are, parents will find proven help here.

An examination of the relationship between music, digital technologies and creativity with a specific focus on how personal computers have had a fundamental effect upon the production and distribution of popular music for musicians and producers.

In the Hugo-award winning, epic New York Times Bestseller and basis for the BBC miniseries, two men change England's history when they bring magic back into the world. In the midst of the Napoleonic Wars in 1806, most people believe magic to have long since disappeared from England – until the reclusive Mr. Norrell reveals his powers and becomes an overnight celebrity. Another practicing magician then emerges: the young and daring Jonathan Strange. He becomes Norrell's pupil, and the two join forces in the war against France. But Strange is increasingly drawn to the wild, most perilous forms of magic, and he soon risks sacrificing his partnership with Norrell and everything else he holds dear. Susanna Clarke's brilliant first novel is an utterly compelling epic tale of nineteenth-century England and the two magicians who, first as teacher and pupil and then as rivals, emerge to change its history.
