Over a long, turbulent life, Picasso continually discovered new ways of seeing the world and translating it into art. A restless genius, he went through a blue period, a rose period, and a Cubist phase. He made collages, sculptures out of everyday objects, and beautiful ceramic plates. True Kelley's engaging biography is a wonderful introduction to modern art.

"Picasso and Truth" offers a breathtaking and original new look at the most significant artist of the modern era. From Pablo Picasso's early "The Blue Room" to the later "Guernica", eminent art historian T. J. Clark offers a striking reassessment of the artist's paintings from the 1920s and 1930s. Why was the space of a room so basic to Picasso's worldview? And what happened to his art when he began to feel that room-space become too confined--too little exposed to the catastrophes of the twentieth century? Clark explores the role of space and the interior, and the battle between intimacy and monstrosity, in Picasso's art. Based on the A. W. Mellon Lectures in the Fine Arts delivered at the National Gallery of Art, this lavishly illustrated volume remedies the biographical and idolatrous tendencies of most studies on Picasso, reasserting the structure and substance of the artist's work. With compelling insight, Clark focuses on three central works--the large-scale "Guitar and Mandolin on a Table" (1924), "The Three Dancers" (1925), and "The Painter and His Model" (1927)--and explores Picasso's answer to Nietzsche's belief that the age-old commitment to truth was imploding in modern European culture. Masterful in its historical contextualization, "Picasso and Truth" rescues Picasso from the celebrity culture that trivializes his accomplishments and returns us to the tragic vision of his art--humane and appalling, naive and difficult, in mourning for a lost nineteenth century, yet utterly exposed to the hell of Europe between the wars.

One of The Christian Science Monitor ' s Best Nonfiction Books of 2018 When Picasso became Picasso: the story of how an obscure young painter from Barcelona came to Paris and made himself into the most influential artist of the twentieth century. In 1900, an eighteen-year-old Spaniard named Pablo Picasso made his first trip to Paris. It was in this glittering capital of the international art world that, after suffering years of poverty and neglect, he emerged as the leader of a bohemian band of painters, sculptors, and poets. Fueled by opium and alcohol, inspired by raucous late-night conversations at the Lapin Agile cabaret, Picasso and his friends resolved to shake up the world. For most of these years Picasso lived and worked in a squalid tenement known as the Bateau Lavoir, in the heart of picturesque Montmartre.

Here he met his first true love, Fernande Olivier, a muse whom he would transform in his art from Symbolist goddess to Cubist monster. These were years of struggle, often of desperation, but Picasso later looked back on them as the happiest of his long life. Recognition came slowly: first in the avant-garde circles in which he traveled, and later among a small group of daring collectors, including the Americans Leo and Gertrude Stein. In 1906, Picasso began the vast, disturbing masterpiece known as *Les Femmes d'Alger*. Inspired by the groundbreaking painting of Paul Cézanne and the startling inventiveness of African and tribal sculpture, Picasso created a work that captured and defined the disorienting experience of modernity itself. The painting proved so shocking that even his friends assumed he'd gone mad. Only his colleague George Braque understood what Picasso was trying to do. Over the next few years they teamed up to create Cubism, the most revolutionary and influential movement in twentieth-century art. This is the story of an artistic genius with a singular creative gift. It is filled with heartbreak and triumph, despair and delirium, all of it played out against the backdrop of the world's most captivating city.

"Intimate, yet objective; comprehensive, yet enthralling; this biography of the greatest artists of our century will rank with Vasari in the annals of European painting."--Sir Herbert Read "Authoritative and a good read." --Daily Mail

One of The Christian Science Monitor's Best Nonfiction Books of 2018 "An engrossing read...a historically and psychologically rich account of the young Picasso and his coterie in Barcelona and Paris" (The Washington Post) and how he achieved his breakthrough and revolutionized modern art through his masterpiece, *Les Femmes d'Alger*. In 1900, eighteen-year-old Pablo Picasso journeyed from Barcelona to Paris, the glittering capital of the art world. For the next several years he endured poverty and neglect before emerging as the leader of a bohemian band of painters, sculptors, and poets. Here he met his first true love and enjoyed his first taste of fame. Decades later Picasso would look back on these years as the happiest of his long life. Recognition came first from the avant-garde, then from daring collectors like Leo and Gertrude Stein. In 1907, Picasso began the vast, disturbing masterpiece known as *Les Femmes d'Alger*. Inspired by the painting of Paul Cézanne and the inventions of African and tribal sculpture, Picasso created a work that captured the disorienting experience of modernity itself. The painting proved so shocking that even his friends assumed he'd gone mad, but over the months and years it exerted an ever greater fascination on the most advanced painters and sculptors, ultimately laying the foundation for the most innovative century in the history of art. In *Picasso and the Painting That Shocked the World*, Miles J. Unger "combines the personal story of Picasso's early years in Paris—his friendships, his romances, his great ambition, his fears—with the larger story of modernism and the avant-garde" (The Christian Science Monitor). This is the story of an artistic genius with a singular creative gift. It is "riveting...This engrossing book chronicles with precision and enthusiasm a painting with lasting impact in today's art world" (Publishers Weekly, starred review), all of it played out against the backdrop of the world's most captivating city.
