Research (GRS)" Gordon Research Seminar (GRS). Those interested in attending both meetings must submit an application for the GRS in addition to an application for the GRC. Refer to the associated GRS program page for more information.

2022 Scientific Methods in Cultural Heritage Research ...

Scientific analysis of these objects is a challenging task due to their complex composition, artistic and historical values requiring the use of minimally invasive and nondestructive analytical procedures. This textbook summarizes scientific methods that are currently used to characterize objects of cultural heritage and archaeological artifacts.

Heritage, care and sustainable use of heritage so it can enrich people's lives, both today and in the future. Heritage science is an umbrella term encompassing all forms of scientific enquiry into human works and the combined works of nature and humans, of value to people. The term has become widely

Heritage science - Wikipedia

The expression “ scientific heritage ” or “ heritage of science ” is often used in the literature on the assumption that it will be clearly and unequivocally understood. However, scientific heritage is diverse, complex, multi-layered, and more difficult to define than industrial heritage or natural heritage.
