John Bishop isn't your typical single dad. Reserved, impatient, and utterly clueless. Running the family's bed and breakfast has many perks. Working long hours, picking up after the guests, and hearing couples going at it all night long aren't any of them. Hooking up with girls who come to the ranch for horseback riding lessons? Best perk of them all. That is until a baby shows up at his doorstep with a note claiming it's his. Growing up on a ranch was anything but easy, but raising a newborn is proving to be the hardest task he'll ever tackle. Leaving the bachelor life behind, his only priority is to hire a nanny who can teach him a thing or two about parenting-except he doesn't anticipate her being gorgeous and quirky with an unhealthy football obsession. Mila Carmichael has many talents-making balloon animals, creating origami art, and remaining in the friend zone. Often seen as one of the guys, she's struck out more times than a rookie baseball player. Seeking a new adventure, she flies to Texas to visit family and is offered a position she can't refuse. Helping out a new dad should come easy to her, considering her past experience, but what she doesn't anticipate is him being an attractive Southern temptation. But that's only the beginning. While growing close to his family and falling madly in love with the baby girl who's stealing their hearts, things are bound to get complicated. Everyone knows not to mix business with pleasure. That means no late movie nights, no stolen glances, and definitely no kissing behind closed doors. Too bad the universe has other plans-one that'll threaten to take away the main thing that binds them together.

Evan Bishop is your typical hotshot doctor. Hardass, brooding, and all business. Instead of working on the family ranch, Evan broke the mold and became an ER doctor. He's good with his hands-in more ways than one-smart as a whip and is the definition of God's gift to women. Being a gentleman is in his Southern roots, but that doesn't mean he isn't flawed. Exclusive dating has never been a top priority and his tragic past makes him stay at arm's length. Deciding to let loose for a wild night, he takes a page from the Bishop brother's relationship book and hooks up with a mysterious girl he'll never have to see again, which is perfect for this self-proclaimed bachelor. Emily Bell is a city girl through and through but is determined to get away from her family and past. All she wants is a fresh start and to make a name for herself in the medical field. No random hookups and no dating coworkers-that's her new motto after being burned time and again. When she agrees to attend a wedding as a plus-one, she's soon ditched and left to drink solo-but not for long. Mr. Suit is the ultimate temptation with his Southern charm, messy blond hair, and irresistible sex appeal. Everything about him screams bad news, but he makes her reconsider her rules just for one night. After all, some rules are made to be broken. They want the same thing-one night of passion then they'll go their separate ways. No cuddling afterward. No next day phone calls. No awkward goodbyes. Too bad the universe has other plans-one that'll be obvious when they report to work on Monday morning.
