Consider the impact of career changes, children, and relocations. Consider whether you're willing to face minor and life-threatening illnesses with this person. Think about taking care of them—or them taking care of you—as you grow old. If you can imagine a long-term future with this person, it's probably love.

How to Know if You Love Someone (with Pictures) - wikiHow

For example, someone with frontotemporal dementia may first show extreme behavior and personality changes. But someone with Alzheimer's disease would first experience short-term memory loss and struggle with everyday tasks. Researchers and doctors still don't know enough about how these diseases work to predict exactly what will happen.
